APPLICABLE SCENARIOS

Multiple application scenarios: outdoor work, motorcycle riding, snow sports, hiking, camping, fishing, etc.

KEEP WARM

CERTIFICATION

FACTORY

MANUFACTURING CAPABILITY

Mainly the production of core components
and the production of clothing

PRODUCTION OF CORE COMPONENTS

Technology

The company's professional technical team has been dedicated to the technical research of core components for a long time, constantly experimenting and practicing over the years.

Component production

After years of research, we have independently created a set of production processes suitable for heating modules, allowing customers to rest assured from any aspect.

Module testing

Each process has very strict standards and testing requirements, and only when all requirements are met can final confirmation be made.

CLOTHING PRODUCTION

Mass production

We have strict production processes from fabrics to finished heated clothing, and because of our professionalism, we are trustworthy.
